BOOK REVIEW

START WITH WHY

BY- SIMON SINEK

This book is based on the development of leadership and how great leaders inspire everyone to take action. The book starts with a comparison of the two main ways to influence human behavior:

● MANIPULATION VERSUS INSPIRATION

The author explains this with the "GOLDEN CIRCLE" as he subdivides it as "WHAT", "HOW" and "WHY". Sinek says people are inspired by a sense of purpose of "Why", and that this should come first when communicating, before "How" and "What". Sinek calls this thing as the golden circle, a diagram of a concentric circle with "Why" in the innermost circle (representing people's motives or purposes), surrounded by a ring labeled "How" (representing people's processes or methods), enclosed in a ring labeled "What" (representing results or outcomes). He goes on to speculate about the biological factors behind this structure, such as the limbic system.

LEARNINGS:

- A true leader must look from the point of view of WHY is he gonna do this thing
- A true leader must think the exact way what the teammates are having or whatever the idea they possess
- A true leader must believe what he does in his work with his teammates and tell his belief so that they work together
